PURSUIT

FRANKLIN  
COLLEGE 

# OUR CURRICULUM, THE PURSUIT,

is our approach to a liberal arts and sciences education. It emphasizes practical, transferable skills to prepare you for real-world opportunities. At Franklin, you will have a personalized academic plan, mentors and resources that contribute to your success. Upon graduation, you will be ready to thrive and adapt in our evolving world as a critical thinker, effective communicator and creative problem solver.

**YOU CAN DESIGN**  
a learning experience  
that best suits your  
individual needs,  
strengths and interests.

Our classes are taught by experts in their fields, not teaching assistants. From day one, faculty work closely with you to identify your passions and strengths, then guide you to empowering research and internship opportunities. Our professors put students first and challenge them to stretch beyond easy answers or checking off requirements.

We founded the Center for Exploration to provide you with resources for career development, global education, internships and professional development.

## PROPEL WITH LAUNCH

Launch is a yearlong program that transitions you into college and empowers your growth in every area. The distinct first-year experience is tailored to you, giving you the freedom to pursue topics you love while receiving individualized guidance. Transition to college easily with skill-building workshops, topic-based seminars and professional mentorship.

You can customize your academic experience across 50+ majors and 40 minors in 24 disciplines, three cooperative and 10 pre-professional programs and two graduate programs. You may blend courses and majors — or even create your own — to meet your career goals.
