

Visiting Assistant Professor of Organic Chemistry

The Department of Chemistry & Physics at Franklin College invites application for a visiting assistant professor appointment in organic chemistry, to begin in August 2024. The initial appointment for this nine-month position will be for one year, but with the possibility of renewal based on quality of instruction and department need. We provide a strong, active, and tailored liberal arts education through small class sizes and intentional relationships between students and their faculty mentors. Located about 20 miles from downtown Indianapolis, we support purposeful and practical academic experiences in and out of the classroom that leverage this location as students pursue personal, intellectual and professional growth. Please see www.FranklinCollege.edu for more details.

Courses taught will include organic chemistry, biochemistry, and their associated labs as well as general chemistry labs. Classes will be conducted in person. Candidates who demonstrate a dedication to teaching, a commitment to promoting high-impact practices with students, the ability to contribute in meaningful ways to the college's continuing commitment to diversity, and a genuine interest in working with undergraduates in a small-college liberal arts setting will be given preference. Applicants with Ph.D. in organic chemistry or closely related field and college-level teaching experience are highly preferred. However, candidates with ABD status including those with master's degree are also encouraged to apply. This is a full-time position with a benefits package that includes health, dental, and vision insurance, life and disability insurance, retirement plan, EAP, and tuition benefits for the faculty member and their family.

The hire will join the department at a time of exciting curricular change, coupled with a renovated and expanded science building that highlights student research and collaboration. The historically strong chemistry program is committed to delivering fundamentals needed in today's market through increasingly immersive and hands-on methods of teaching and learning. The college is embarking on a similar initiative campus wide.

Applications will be accepted through July 15th, 2024, or until the position has been filled. Applicants should submit a complete application (electronic submissions preferred) including a cover letter, Curriculum Vita, transcripts, and contact information of three references via the application link – [Franklin College Faculty Application](#).
